

MAKE FIRE SAFETY A TOP PRIORITY

REMEMBER TO SPRING FORWARD ONE HOUR!

Daylight Saving Time begins at 2 a.m. Sunday, March 12. While moving clocks forward one hour, be sure all of your smoke alarms and carbon monoxide (CO) alarms are working properly and have fresh batteries.

REPLACING BATTERIES CAN SAVE LIVES

Most fire deaths occur in buildings and homes without working smoke alarms. That's why replacing batteries in your alarms every six months isn't just a good idea. It can also be a lifesaver.

Direct Wire Ionization Smoke Alarm

- 120 Volt
- 5-5/8" Diameter
- Mfg #9120A

112318
~~\$11.65~~
\$10⁹⁹

Battery Operated Ionization Smoke Alarm

- One 9 Volt Battery Included
- 4-3/4" Diameter
- Mfg #0916KCA

324223
~~\$14.19~~
\$11⁹⁹

Direct Wire Ionization Smoke Alarm With Battery Back-Up

- 120 Volt
- One 9 Volt Battery Included
- 5-1/2" Diameter
- Mfg #P1275CA

324228
~~\$20.65~~
\$17⁵⁰

9 Volt Lithium Battery

- Ideal For Smoke And Carbon Monoxide Alarms

393131
~~\$8.39~~
\$7⁹⁵

Battery Operated Ionization Smoke Alarm With Safety Light

- Requires One 9 Volt Battery (Not Included)
- 4-3/4" Diameter
- Mfg #0918KCA

324234
~~\$21.34~~
\$19⁹⁹

Battery Operated Photoelectric Smoke Alarm With Test/Silencer

- Easy Access Battery Door
- One 9 Volt Battery Included
- 5" Diameter
- Mfg #SA710CNA

112303
~~\$26.25~~
