Not only a Supplier but also a Member!

Co-operative Webs wants to thank co-ops for their support since becoming a Co-op Cost Cutters Supplier just over a year ago. Our specialty is **Co-op Web Design**. We are pleased to work with housing co-ops and federations to establish their online presence.

We have been building websites for housing co-ops for over 10 years. My expertise comes from living in co-op housing for 17 years, plus volunteering on co-op and federation Boards.

If your co-op is interested in a website, **Co-operative Webs** offers free, no obligation quotes in writing that you can take back to your Board for review. We will also train your staff to use and edit the website at no extra cost.

An additional offer is an annual maintenance package that includes security monitoring, updating and backing up of websites.

To celebrate Co-op Cost Cutters' 20th anniversary, we are offering this special for 2018 – a free custom designed logo and Facebook Business or Group page for any co-op that has its website built buy Co-operative Webs this year. Contact Charles Sandor at charles@co-operativewebs.ca to get your free quote.

Co-operative Webs has built 41 co-op housing and 4 federation websites to date!
